Dacca, the 14th December 1940.

Second Forecast of the Winter Rice Crop of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under winter rice in Bengal has represented some 20·6 per cent. of the total area under winter rice in India.)

Character of the season.—In the first forecast issued in September last the weather was reviewed up to August. Owing to prolonged drought transplanting of winter rice was very late in many parts of the province this year. Seasonable showers in September facilitated late transplantation and favoured the growth of the crop to some extent. Rainfall in the month of October was again insufficient and materially affected the final growth and flowering of transplanted winter paddy notably in some west and north Bengal districts. In consequence the outturn of the crop has been poor for the province.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 14,897,200 acres as compared with 16,110,300 and 16,095,900 (revised) acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended it will be seen that only one district reports a normal crop of 100 per cent., twelve districts a crop varying from 71 to 92 and the rest below 70 per cent. of the normal. According to the above estimates the provincial outturn works out to 72 per cent. of the normal as against 86 and 88 per cent. in the corresponding and final forecasts of last year.

Accepting 72 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean rice (husked) per acre, is estimated at 4,925,200 tons this year as against 6,361,900 and 6,504,100 (revised) tons, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 19th December 1940.

First Forecast of the Spring Oilseed Crops of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under linseed in Bengal has represented some 3·3 per cent, and that of rape and mustard 12·9 per cent. of the total area under these crops in India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Spring oilseeds are chiefly grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions the cultivation is not so extensive. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 942,700 acres this year against 950,400 and 965,200 acres, respectively, in the corresponding and the final forecasts of last year.

Character of the season.—At the outset weather was favourable for preparatory tillage and sowings which commenced generally in normal time. Subsequent dry weather in November facilitated further sowings and favoured the growth of the crops excepting in some West Bengal districts where the crops suffered from lack of adequate soil moisture, elsewhere the condition may be regarded as fair.

M. CARDER,
Director of Agriculture, Bengal.

Below is published, for general information, the address delivered by the Inspector-General at the passing out of the 1940 batch of cadet sub-inspectors:—

Gentlemen,

To-day you complete the theoretical side of your training to be police officers. You are now leaving the sheltered atmosphere at Sardah for the bigger world of Bengal. Here you have had a number of friendly instructors; you have had to do little in the way of thinking for yourselves; responsibility has hardly yet come your way. Now, in a short time all will be changed. Although your period of training is not yet finished, you are going out to districts for practical as opposed to theoretical training in your professional duties, you will still have instructors who however will not be able to devote all their time to watching you and teaching you, as they have their own duties to perform and they can merely guide you on the broad principles and outlines and show you by examples as much as by precept how you can best make yourselves efficient police officers. Great care will be taken in selecting for you those under whom you will be posted for training and I feel sure they will devote as much time as they can possibly spare to the improvement of your technical knowledge but at the same time much will depend upon yourselves as to how much you learn. You are expected now to keep your eyes and ears open and I beg of you to be inquisitive. There is a reason for every rule that has been prescribed in the Police Regulations; there is an object in all preventive measures that are adopted, and if you can once see the reason why these rules have been framed, why certain practices are carried out, then you are half way or more towards being able to apply the best measures. I have frequently likened the problem of the police to that of a doctor. Your patient is the criminal situation of the police-station to which you are posted; the disease with which you have to deal is the rise and fall in crime in that jurisdiction as in the patient it may be a rise and fall of temperature. The duty of a doctor is to diagnose the disease from which the patient is suffering, for until that is done it is impossible to prescribe the medicine which will cure that disease. Thus with the police until you find out the reason for the increase in crime or reasons for certain fluctuation—seasonal or geographical—it is not possible for you to introduce the remedy in the shape of patrols, surveillance or detection. If then you cannot at first see any reason why certain action is taken, why certain rules or registers have been prescribed, please do not hesitate to ask the reason why and if your local officer is incapable of giving you a satisfactory answer or if he gives you an answer which does not convince you, do not hesitate to take your query a step further and ask your Inspector or even your Superintendent of Police for the reason. The Police as at present constituted in Bengal derived their more modern conception and organisation from the Police Commission of 1902 and I am afraid that in many places there is far too great a tendency to carry on to-day with those methods that were introduced in or even in force before that year 1902. But conditions have not stood still; modern inventions, railways, telegraphs, aeroplanes and many other scientific inventions have developed with enormous strides in the last 30 years. I regret to say that with few exceptions our officers have not kept pace with that advance of modern science. I want you, therefore, to realise that you are joining now a highly technical profession, one that requires constant study, one in which you will never have learnt everything there is to know. I myself with my many years of service am constantly learning new things relating to my profession and the same must be the case with all of you. Do not, therefore, feel that you are leaving this College fully equipped, completely trained police officers. Realise that you are only on the very threshold of approach to the enormous amount of research and knowledge which is required of a first class police officer. In this College you have shown great concentration, great keenness and interest in acquiring such knowledge as we have been able in the short time which you have spent here to impart to you; but now onwards much will rest with yourselves. Material for study will be placed within your reach by articles published in the Gazette, by the Bengal Police Magazine—a quarterly production which I commend most heartily to your attention—and above all, the study of human nature which should be the police officer's most frequent subject. So much then your professional future. But I have a still more important topic with which I want to fill your minds and which I desire to impress upon you for the rest of your days, and that is your moral obligations in the Service to which you are now admitted members. Many of you when questioned at the time of selection as to why you chose the Police Service as your career no doubt answered "because it offers an opportunity of serving your fellow men". If that is your real reason it is a most admirable one and one which from now onwards, I hope, you will all adopt. We are public servants which means servants of the public. There is no shame attached to the designation "servant". We are called into this world not to serve our own selfish ends but to serve the needs of others in whatever walk of life we adopt. But in the Police, above all services, we take upon ourselves service of the highest order. To us is committed the safety of the people and the safety of their property from the depredations of those with criminal intent. Go out then to your districts, determined to be of service to your fellow countrymen; disabuse your minds if ever they held such a thought of the idea that you are going out as a man of great importance, as a tyrant, as one whose word is going to be law. You are charged now with the care and protection of those living within the jurisdiction to which you may be posted. You are paid by

the Government and bound under the law to render services of a specified nature to those people. You are not doing them a favour by investigating their cases or recording their complaints; you are carrying out the law which compels you to do so, and you must have no choice or selection in the matter. You have a bounden duty which you are appointed to fulfil. Some old fashioned police officers—not nearly so prevalent perhaps as our traducers would have us believe—were highhanded, dictatorial, blustering and discourteous. The result was that just as they failed to realise their duty of helping the public among whom they lived, so equally were the public deterred or even terrified from helping them and from the misdeeds of men of this class has grown up the distrust which in the past the public so definitely held of the Police Service as a whole. That is a position which I have done much to endeavour to break down. You are Bengalees drawn from respectable families of Bengal and your brothers and uncles and neighbours are the public of Bengal. Therefore there seems to me no reason now why if you carry into effect the instructions which I am endeavouring to give you to-day, this antipathy, antagonism, distrust should not vanish. Your fathers and uncles and brothers—they know you to be men of good character, men of education; they surely cannot believe that the mere assuming of a police uniform is going to change you into some overweening, overbearing monster. If then all of you make up your minds not to disappoint your fellow countrymen, your relatives, then gradually the public of Bengal must come to realise that the Police Force of this country is a local product, that their own kith and kin are not transformed into new beings of an ogrish character but are kindly beings with the same fine feelings that they themselves have and that you have not acquired a new character of an unpleasant nature by joining the Police Force. On the contrary you have merely been singled out and given special training and facility for rendering service of a particular kind to the people of Bengal. With few exceptions now, the Bengal Police is a Bengal product; except in a few cases of the Special Armed Forces all recruitment to the rank of constable is made from Bengalees. You, gentlemen, are all residents of Bengal and even your superior officers are now from year to year becoming more predominantly Bengalee, so that if there is any justification for serious criticism of the efficiency and morale of the Bengal Police, that criticism is very largely by brother of brother. I have served for 33 years in the Bengal Police and I know their capacity; I know what fine magnificent service they can and have so frequently rendered. Of their bravery as witnessed by their tackling of the terrorist organisation and by their records on the rolls of the King's and Indian Police Medals I have no doubt. It only remains to clear our name of the suspicion— unfortunately in many cases in the past too often justified—of highhandedness and dishonesty. Which brings me now to my last concluding admonition and that is "Keep your hands and your heart clean and free from all suspicion of dishonest dealings". You know now and you knew when you decided to enter the Police the pay that you will draw and your prospects of promotion. You have accepted those terms as adequate to your needs. Therefore, there is no justification for endeavouring to add to those terms of service by dishonest or unscrupulous methods. As I have said earlier in my address, the law prescribes certain action to which the public are entitled from police officers of various ranks. Those services must be rendered free gratis with no thought of acceptance of a fee for performing a duty, which is your bounden one, or for devoting perhaps more attention to one case than you might to another. I do not believe that there remain in the Bengal Police at the moment many people who are definitely dishonest and take money with a view to shielding the criminal. But there are, I regret to say, a number who still accept payment for doing their duty—the duty which I reiterate you are called upon by virtue of your office and under the law to perform. Take it from me that every single case in which one officer is dishonest tends to blacken the name of the whole force and until we eradicate from the force as a whole any black sheep of this type that may remain, we run the danger of perpetuating the ill fame and the bad reputation so often ascribed to our Service. To-day you have taken before your Inspector-General the oath of allegiance to the King Emperor and to the Government and to perform your duties honestly, diligently and cheerfully. I trust that you appreciate the solemn nature of an oath and I hope that you will carry this oath in your minds and before you throughout your service. Make a solemn promise to yourselves never in any circumstances to take even a single pice in connection with the execution of your duty. I want you to go perhaps even a little further than this, for I feel that until there is a determination on the part of the whole force to rid itself of its black sheep we shall never attain the high standard which I feel sure is attainable. I want you to band yourselves together to set your face against any dishonesty on the part of your comrades and make it felt throughout the force that you despise anybody who falls from this high standard, and that socially you will boycot and debar from all fellowship with you and brother officers of the Police anyone who dares to bring disgrace upon the force by deviating from the highest lines of conduct. I am not aware whether your Principal has told you that the Bengal Police has in one great feature a worldwide reputation. It was in the Bengal Police, in our Criminal Investigation Department that the system of classification of finger-prints, which is now almost universal, was discovered. If then in some spheres of scientific progress the Bengal Police can be first in the world, there is no reason why in honesty and efficiency it cannot also stand equally high among the police forces of the Empire.

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 35L.A.—6th January 1941.—The following report of the Select Committee on the Bengal Land Revenue Sales (Amendment) Bill, 1937, by Mr. Syed Abdul Majid, M.L.A., with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Land Revenue Sales (Amendment) Bill, 1937, by Mr. Syed Abdul Majid, M.L.A.

We, the members of the Select Committee to which the Bengal Land Revenue Sales (Amendment) Bill, 1937, by Mr. Syed Abdul Majid, M.L.A., was referred by a motion carried in the Bengal Legislative Assembly on the 6th September, 1940, beg to submit this our final report.

The Committee met for the first time on the 18th September, 1940, and continued their sittings thereafter on the 20th September, and 11th and 12th November, 1940, when they concluded their deliberations on the Bill.

The Hon'ble Sir Bijoy Prasad Singh Roy, Minister in charge of the Revenue Department, was elected to the chair and consent of the Hon'ble Speaker was obtained in respect of the sittings of the Committee held after the 31st October, 1940, which was the date appointed by the Assembly for submission of the report.

The Bill was published after introduction in the *Calcutta Gazette* of the 18th November, 1937, and has not, in our opinion, been altered by our recommendations to the extent of requiring republication.

Matter recommended by us to be omitted has been printed in italics and included in square brackets and new matter recommended to be inserted has been underlined.

The reasons for the amendments recommended by us besides those of a purely formal or drafting nature are as follows :—

Preamble.—The insertion of Bengal Act VII of 1868 in the preamble has been necessitated by the insertion of the new clause 3 to this Bill.

Clause 2.— We have inserted some drafting alterations in this clause. In the proposed section 37A we have considered a compensation of three per cent. of the purchase money sufficient for a *bonâ fide* purchaser. The one per cent. of purchase money, originally provided for payment to the Government as costs incurred subsequent to the issue of sale notification, was however considered by us to be rather arbitrary and we have therefore provided for payment of the actual costs incurred in such cases.

In the proposed section 37B, we did not consider it necessary to issue notices of the application for setting aside the sale to anybody except the purchaser and have modified sub-clause (*1*) accordingly.

The new sub-clause (*3*) has been inserted in order to provide for appeals against orders of the Collector refusing to vacate sales, on the analogy of the provisions contained in the Bengal Tenancy Act and the Civil Procedure Code.

The provision in the proposed new section 37C has really been brought out of section 37A as originally proposed with slight modification. We have thought it expedient to leave the question of payment of interest to the discretion of the Collector according to the merits of each case.

The slight additions in the proposed section 37D have been made for making the intention clear.

Clause 3.—In this new clause we have amended section 30 of the Bengal Act VII of 1868 as we considered it a desirable consequential change, to avoid any possible misinterpretation on the effect of the present Bill.

Irrigation.

RESOLUTION No. 1-I.

Calcutta, the 17th September 1940.

Read the Annual Irrigation Revenue Report for the year 1938-39.

2. The gross expenditure on capital account during the year was Rs. 66,099. After the deduction of receipts and recoveries on capital account amounting to Rs. 95,337, the net capital expenditure was (—) Rs. 29,238 as against Rs. 2,13,643 in the previous year. The major portion of the gross capital outlay was incurred on residual works of the Damodar Canal and the recovery was almost wholly on account of the hire charges earned by the dredger "Ronaldshay".

The expenditure on revenue account amounted to Rs. 34,43,420 during the year under review as against Rs. 28,29,151 of the previous year. Of the total, a sum of Rs. 6,55,354 was spent on irrigation works proper, the principal items being the Damodar (including the Eden), Bakreswar and Midnapore Canals, the contour survey in Central and Western Bengal and the preparation of a detailed estimate for the Howrah-Hooghly Flushing Scheme. A sum of Rs. 4,88,211 represents mainly the value of the work of dredging the storm water outfall channel carried out on behalf of the Corporation of Calcutta out of contributions made by them. The rest of the expenditure on revenue account was on navigation, embankment and drainage works. The expenditure on navigation was mainly for the upkeep of the five suction dredgers, the maintenance of the Hijili Tidal Canal in Midnapore and of the existing steamer and boat routes from Calcutta to Eastern Bengal and Assam and the conservancy of some of the principal navigable rivers of the province such as the Ganges, the Dhalleswari and the Buriganga.

The total revenue receipts during the year were Rs. 17,16,573 as against Rs. 11,97,334 of the previous year. The rise of revenue to the extent of more than Rs. 5 lakhs was due to the collection of arrears from the Damodar Canal area.

In 1938 there was continued drought up to about the end of May and subsequently there was heavy rainfall which caused damage to crops in many places. During the year under review the flood levels were exceptionally high in South, Central and Eastern Bengal owing to high levels in both the Ganges and Brahmaputra rivers. In several rivers the levels exceeded the highest record.

The total area irrigated by the Damodar, Eden, Bakreswar, Midnapore, Salbund, Amjore and Kashianalla Canals was 113,405 acres compared with 200,308 acres in the previous year. The fall was due to the fact that the number of leases executed by the tenants in the area commanded by the Damodar Canal, which was brought back under the operation of the Irrigation Act during the year, was small.

The contour survey of certain areas in Central and Western Bengal which was undertaken during the cold weather of 1936 was continued during the year under review. It is expected that on the data obtained by such surveys, it will be possible to frame projects for schemes which will be remunerative and suitable for execution under the Bengal Development Act.

The temporary Development Circle which was entrusted with the preparation of a detailed irrigation and flushing project for an area of 916 square miles lying in the districts of Burdwan, Hooghly and Howrah, submitted to the Chief Engineer the detailed estimate of the project in February 1939.

The dredger "Ronaldshay" was engaged fully throughout the year under review on the work of the Corporation of Calcutta referred to above and earned a hire charge of Rs. 1,46,000.

During the year under review sanction was accorded to the expansion and reorganisation of the Department on a temporary basis up to the 29th February 1940 with three circles of superintendence, eleven divisions and 28 subdivisions. The Bankura Division was renamed the Western Development Division and transferred to the Development Circle with effect from the afternoon of the 8th March 1939.

By order of the Governor,

J. R. BLAIR,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 23rd December 1940.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under *til* in Bengal has represented some 3·7 per cent. of the total area under *til* in India.)

Character of the season.—The rainfall in August and September was sufficient for the field operation and for the sowing of the crop which commenced generally in normal time. Subsequent dry weather facilitated further sowings and was helpful to the growth of the crop excepting in some west and north Bengal districts where the crop suffered from drought. On the whole, the season has been fair for the crop.

Acreage.—Total area sown with the crop this year is estimated at 46,400 acres as against 45,300 acres last year.

Outturn.—According to the District Officers' estimates the outturn for the province works out to 77 per cent. of the normal this year as against 79 per cent. last year.

Taking 7 1/20th maunds as a normal rate of yield per acre the gross outturn for the province is estimated at 9,300 tons this year as against the same estimate last year.

M. CARBERY,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Camp Calcutta, the 19th December 1940.

Final Forecast of the Bhadoi Crops of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under autumn rice in Bengal has represented some 7·7 per cent. of the total area under rice in India.)

Character of the season.—As indicated in the Preliminary Forecast, the rainfall in May and June facilitated sowings and benefited the growth of the plants to some extent. Subsequently, however, the weather conditions became unfavourable and drought or scanty and insufficient rainfall affected the growth and final development of the crops almost throughout the Presidency. The season was thus a bad one for the *bhadoi* crops as a whole.

Acreage.—The total acreage sown with different *bhadoi* crops this year is reported to be 6,131,900 acres against 6,447,500 acres last year. Of this, the area under autumn rice is estimated at 5,416,200 acres against 5,741,500 acres last year.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 70 per cent. of the normal this year against 75 per cent. last year. The autumn rice is estimated to yield an outturn of 69 per cent. of the normal for the province this year against 75 per cent. last year.

On the basis of a normal yield of 11 1/9th maunds of clean rice per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 1,525,400 tons this year against 1,757,600 tons last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 7th December 1940.

Third Forecast of the Cotton Crops of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under cotton in the territories in Bengal to which this forecast relates has represented some 0·2 per cent. and that in the Bengal States some 0·1 per cent. of the total area under cotton in India.)

There are two crops, early and late. The early crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The late crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in October last the weather has not been very favourable for the crop. In Chittagong Hill Tracts the November showers have affected the crop to some extent.

Area sown.—The total area sown with early cotton is returned at 107,078 acres this year against 92,470 acres (revised) in the corresponding forecast of last year and that with late variety at 635 acres both this year and in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 32,732 bales this year against 29,572 bales (revised) in the corresponding forecast of last year and that of late variety at 70 bales both this year and in the corresponding forecast of last year.

Director of Agriculture, Bengal.

GOVERNMENT OF BENGAL.

Department of Public Health and Local Self-Government.

Public Health.

RESOLUTION No. 1847P.H.

Calcutta, the 24th December 1940.

Read the reports of the Chief Engineer, Public Health Department and of the Sanitary Board for the year 1939.

2. During the year under review Mr. F. C. Griffin, M.Inst., C.E., M.I.E. (Ind.), who held charge of the department for the last twelve years retired from service and Mr. S. N. Ghosh, B.A., (Cal.), B.Sc. (Glas.), M.Inst., C.E., F.R.San.I., M.I.E. (Ind.), Executive Engineer, Central Division, was appointed as the Chief Engineer, Public Health Department.

3. In the sphere of its normal activities the Engineering Branch of the Public Health Department continued to render valuable assistance to other departments of Government in the matter of sanitary engineering, besides helping the various local bodies in drawing up, executing, supervising or maintaining their sanitary projects.

4. The total capital expenditure on waterworks and the sewerage works completed or under construction during the year under review amounted to Rs. 8,38,917 as against Rs. 7,45,913 in the previous year. This indicates that inspite of the comparatively poor finances of the local bodies satisfactory progress was maintained towards undertaking sanitary improvement schemes. There was also a fairly large increase in the receipts of the department on account of fees for preparation of schemes and supervision of construction—the total gross receipt during the year being Rs. 54,220 against Rs. 33,231 in the preceding year.

5. The total estimated cost of the schemes prepared by this department during the year was Rs. 43,01,006 as detailed below, compared to Rs. 99,26,000 during the previous year:—

	1939.	1938.
	Rs.	Rs.
Sketch projects	28,35,880	89,94,850
Detailed projects	12,01,110	1,65,750
Miscellaneous	2,64,016	7,65,400
Total ..	43,01,006	99,26,000

The decrease in the value of sketch projects prepared by the department, and also the marked increase in the value of detailed projects drawn up during the year have not been explained in the report. The sudden increase in the value of sketch projects during the year 1938 was probably the result of the revival of the policy of making grants-in-aid towards public health engineering schemes which the local bodies were eager to avail themselves of. The large increase in the value of detailed projects during 1939 show that several of the sketch projects of the previous year have materialized.

6. Fourteen sanitary engineering works were executed under the supervision and control of the Public Health Engineering Department. The department continued to maintain the Kalimpong and Maijdi waterworks as in previous years.

7. During the year under report 54 waterworks were in operation including the non-municipal waterworks at Kalimpong, Bagerhat, Rangamati, Munshiganj and Maijdi. The Bagerhat and Munshiganj waterworks are the results of co-operation between the district boards and union boards concerned and Government expect that their example should be emulated in other areas.

The total number of persons served by waterworks was 1,418,967 and the total quantity of filtered water supplied by the waterworks amounted to 18,725,679 gallons. The quality of the water supplied from the various waterworks is reported to be satisfactory.

8. The chief event of the year under review is the completion of the main works of the Baranagar-Kamarhati Joint Water-supply Scheme, the first of its kind in the province. The members of the Joint Water-supply Committee, constituted under section 87 of the Bengal Municipal Act, 1932, failed to arrive at an agreement in regard to the management of the joint waterworks and at the instance of the Commissioners of the two municipalities the management was taken over by Government and placed under the Chief Engineer, Public Health Department.

9. The staff of the department carried out periodical inspection of the waterworks and drainage works. Their inspection reports were placed before the Sanitary Board and forwarded to the local bodies concerned with necessary recommendations and suggestions for remedying the defects noticed.

10. The rural water-supply subdivision continued to render useful service in matters relating to supply of drinking water in rural areas. The Assistant Engineer and his staff made extensive tours throughout the province in the course of which they inspected tube-wells and other sources for the supply of drinking water in rural areas and also discussed the problems of rural water-supply with the engineering staff of district boards. They also examined the method adopted for execution of tube-wells and other waterworks and where these were found to be defective or capable of improvement, necessary instructions for improvement were given. The rural water-supply staff also advised the local authorities on possible improvements in the system of maintenance of the sources of water with a view to securing efficiency as well as economy. The services of this staff were also fully utilized in the preparation of the water-supply programme of the various districts in connection with the comprehensive programme for rural water-supply for the province. The subdivision has proved very useful and has before it a wider scope of activities along with the progress of the comprehensive rural water-supply programme.

11. The Sanitary Board continued to assist Government by their advice in matters relating to public health. The number of nominated members of the Board was increased from nine to ten during the year under review. The Board held only three meetings during the year in which it considered nine sketch projects and four detailed projects, all of which were approved and recommended to Government for their approval or final sanction, as the case may be, subject to certain conditions in particular cases. As usual the Board also considered the inspection reports of the officers of the Engineering Department and the summarised statements of water analysis reports.

12. Government have pleasure to record their appreciation of the valuable assistance rendered by the Sanitary Board and the staff of the Engineering Branch of the Public Health Department, particularly by Mr. F. C. Griffin, the late Chief Engineer, who retired during the year under review.

Public Health.

NOTIFICATION.

Jessore.—No. 56P.H.—15th January 1941.—Whereas the Governor of Bengal is satisfied that the district of Jessore is threatened with an outbreak of cholera:

Now, therefore, in exercise of the power conferred by section 2A, read with sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor of Bengal is pleased to prescribe the following temporary regulations for the prevention and control of cholera, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, cholera in the said district for a period of six months, with effect from 23rd January 1941:—

Temporary regulations for the prevention and control of cholera.

1. In these regulations, unless there is anything repugnant in the subject or context:—

(*a*) "District Health Officer" means the Health Officer of the district appointed by the District Board under sub-section (*3*) of section 91 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885);

(*b*) "Sanitary Inspector" means a Sanitary Inspector appointed by the District Board under sub-section (*3*) of section 91 of the Bengal Local Self-Government Act of 1885;

(*c*) "Board" means a District Board constituted under the Bengal Local Self-Government Act of 1885;

(*d*) "Union Board" means a Union Board constituted under the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919);

(*e*) "suspected cholera" means any disease accompanied by vomiting and diarrhœa;

(*f*) "patient" means a person suffering from or suspected to be suffering from cholera;

(*g*) "medical practitioner" means any person practising the medical profession.

2. Whenever any land is held jointly by two or more persons, whether as owners or occupiers of that land, such persons shall be held jointly and severally liable for carrying out any measure ordered in a notice under these regulations, and the names of any one or more of such joint-holders may be entered upon such notice at the discretion of the District Health Officer and the District Health Officer shall not be bound to enter the names of all the joint-holders in the notice.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

5. (*1*) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

Location of disease.

7. When a case of cholera or suspected cholera occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, some male inmate of the house shall, within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the nearest Sanitary Inspector.

8. (*1*) If information has not already been given under regulation 7, the medical practitioner called in to attend upon any case of cholera shall forthwith give notice of the case by special messenger to the nearest Sanitary Inspector and by post to the District Health Officer and the cost of such messenger in each case shall be defrayed by the Board.

(*2*) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of cholera brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the District Health Officer by post and the cost of such messenger in each case shall be defrayed by the Board.

9. Presidents of Union Boards in union board areas and thana officers in non-union board areas shall supply to the District Health Officer such periodical returns of cases of cholera as he may from time to time call upon them to furnish.

When the District Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the District Health Officer or the Sanitary Inspector.

He shall not direct the patient to be removed from the house unless it is in his opinion impossible to make proper arrangements for his isolation therein.

12. The District Health Officer or a Sanitary Inspector may order that any person, who has in his opinion been exposed to infection from cholera, shall take such drugs in such quantities as may be specified by the District Health Officer or Sanitary Inspector or shall submit himself to anti-cholera inoculation within a time to be specified in the order.

13. No person shall enter place wherein a patient is isolated under regulation 11 without the permission of the District Health Officer or a Sanitary Inspector.

14. The Board shall provide free of charge suitable places, with necessary attendants, medicine, diet and other necessaries for persons isolated under regulation 11: Provided that a private individual may provide places certified by the District Health Officer as being fit for the purpose of such isolation.

15. No person, who is or has been suffering from cholera, shall leave the place where he has been staying until he has received from the District Health Officer or a Sanitary Inspector written permission to do so.

16. The District Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time as may be specified in the order, such measures for the disinfection or evacuation of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

18. The District Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has, to his knowledge, been in contact with a patient, to act as vendor of any article for such period as may be specified in the order.

18A. No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried with proper precautions to a hospital.

19. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the District Health Officer or a Sanitary Inspector.

19A. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits with proper precautions against spreading the disease any such article for the purpose of having the same disinfected.

19B. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of cholera without the previous written permission of the District Health Officer or Sanitary Inspector, and without taking proper precautions against spreading the said disease.

Water-supply.

20. (*1*) When the District Health Officer or a Sanitary Inspector is of opinion that the water in any well, tank, pool or other possible source of water-supply is contaminated or is likely to be contaminated, he may at once take such steps as he deems necessary to close such well, tank, pool or other source of water-supply, or may require the owner or occupier of land upon which such well, tank, pool or source of water-supply is situated, to take steps to close the same to the satisfaction of the District Health Officer or the Sanitary Inspector, as the case may be, within such time as may be specified in the order.

(*2*) The District Health Officer or a Sanitary Inspector may require such owner or occupier to keep closed during such a period as shall be specified in the order any well, tank, pool or other sources of water-supply closed under paragraph (*1*) of this regulation.

Explanation.—In this regulation, "to close" includes the placing of chaukidars to prevent access to the well, tank, pool or other source of water-supply.

22. The District Health Officer or a Sanitary Inspector may prohibit persons from entering into or using for drinking, bathing, or any other purpose, during such period as may be specified in the order, the water in any well, tank, pool or other possible source of water-supply, which, in his opinion, is contaminated or likely to be contaminated.

23. The District Health Officer or a Sanitary Inspector may, by an order published at such places as he may think fit, set apart any well, tank, part of a river, stream or channel not being private property, or being private property with the consent of the owner, for the supply of water for drinking or culinary purposes and may prohibit therein or within a distance therefrom to be stated in the order all bathing, washing of clothes or animals, or other acts calculated to pollute the water; and may similarly set apart any well, tank, part of a river, stream or channel for the purpose of bathing or for the purpose of washing animals or clothes or for any other purpose connected with the health and cleanliness of the people using such water-supply.

24. The District Health Officer or a Sanitary Inspector may prohibit persons from easing themselves, or throwing, depositing or discharging any rubbish, sewage or offensive matter, into any well, tank, pool or other source of water-supply, which is used by the public, or within such a distance from such well, tank, pool or source of water-supply as he may fix.

Explanation.—In this regulation, "nuisance" means anything which in the opinion of the District Health Officer or Sanitary Inspector is likely to spread or to cause the outbreak of cholera.

26. Whenever the District Health Officer or a Sanitary Inspector is satisfied that the condition of any privy, urinal, drain, sewer or cesspool is such as to cause risk of spreading cholera to the inhabitants of the neighbourhood he may order the occupier of the land in which such privy, urinal, drain, sewer or cesspool is situated to disinfect, or to allow an officer of the Board to disinfect, the same with such disinfectants in such quantities and at such time as the said officer or inspector shall think fit.

27. The District Health Officer or a Sanitary Inspector may for the prevention of the outbreak or spread of cholera order the owner or occupier of any land to repair or make efficient to the satisfaction of that officer or inspector any drain, sewer, privy, urinal or cesspool which is situated upon such land or to remove any such drain, sewer, privy, or urinal or close any such cesspool within such time as may be fixed by the said officer or inspector.

29. The District Health Officer or a Sanitary Inspector may require the owner or occupier of any land to clear and remove, within the period specified in the order, any vegetation upon such land the existence of which in the opinion of the said officer or inspector conduces to the committing of nuisances upon such land.

30. The District Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

36. The District Health Officer may order that no *dome* or other servant of the Board employed for the disposal of corpses shall withdraw from his duties without the permission of the District Health Officer unless such *dome* or other servant of the Board has given notice in writing not less than one month previously of his intention so to withdraw.

37. The District Health Officer or a Sanitary Inspector may through any person authorised by such officer or inspector in that behalf seize and dispose of any corpse, which in the opinion of the said officer or inspector, is infected with or is likely to spread cholera, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of cholera.

38. (*1*) The District Health Officer or Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case of cholera or suspected cholera to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

39. (1) The District Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case of cholera or suspected cholera.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public the officer shall take her statement under such conditions as shall admit of due respect to the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

40. The District Health Officer or a Sanitary Inspector may, with such assistants (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or buildings used for human habitation at any time between sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

General instructions to the enumerating agency in regard to the manner of recording answers to the foregoing list of questions.

(1) *Name.*—Enter the name. If there is objection to giving the name of a female, enter w/o (abbreviation for wife of) or d/o (abbreviation for daughter of) so and so.

(2) *Sex.*—Write the answer in the bottom right-hand corner. If the person enumerated is a male (or eunuch or hermaphrodite, who are to be treated as males) write M. If female, write F.

(3) *Race, Tribe or Caste.*—For non-tribal Hindus write their caste. Give the caste name as stated by the person enumerated. If from the name given it is impossible to identify the caste, add the familiar name of the caste in brackets.

Example.—Viswakarma Brahman (Sutradhar).

Viswakarma Brahman (Kamar).

Yadav.—Against Yadav, there is no need to add "Goala" or "Gop", as Yadav is known to be appropriated to this caste and to no others. There is no risk of confusion.

For a Nepali, write Nepali. If he is a Hindu, add the name of his caste in brackets after the word Nepali.

NOTE.—Sub-castes will not be tabulated; there is no need to record sub-castes. If a Hindu does not wish to record his caste, on the ground that he does not recognise the caste system, the enumerator may write "No caste".

For all members of tribes (whether Hindu or non-Hindu) enter the name of the tribe, *e.g.*, Santal, Garo, Lepcha, etc.

For non-Indians, give the name of their race or nationality. Use precise terms. Do not write "European" but describe as English, Irish, Scots, French, etc. Similarly, do not write American, but say Canadian, U. S. A., Argentino, etc. Other examples are Japanese, Chinese, Iranian, Turkish.

There are many well-defined communities domiciled in India, which can hardly be classified as race, tribe or caste. In such cases, write the name of the community. In Bengal, the most important of these communities are the Muslims. Wherever Muslims are encountered, write "M" (abbreviation for Muslim). Other examples are Anglo-Indians, Brahmos, Parsees, Indian Christians, Jains, Sikhs and Jews. Buddhists also will be treated as a community. A distinction will be made between Arakanese Buddhists and other Buddhists. Where the enumerated person is an Arakanese Buddhist, the enumerator will write Buddhist (Ar.). Other Buddhists will be described as "Buddhist".

(4) *Religion.*—Here enter the personal religion. For Hindus, write H (abbreviation for Hinduism). For Muslims write Is. (abbreviation for Islam). For Christians write Chr. (abbreviation for Christianity).

Sects and denominations are not wanted, therefore avoid such terms as Sakta, Baishnab, Shia, Sunni, Hanafi, Protestant, Roman Catholic, Baptist, and so on.

Note on Tribal communities.—It does not follow that a member of a tribe will profess a tribal religion. He may have been converted to Hinduism, Islam or Christianity. In Q. 4 will be noted the religion which he actually professes. If that religion is a tribal religion, enter the word "tribal". To ascertain his religion, it is often useful to enquire whether he worships the tribal deities and keeps the tribal festivals.

Examples of other religions are cited in the Appendix.

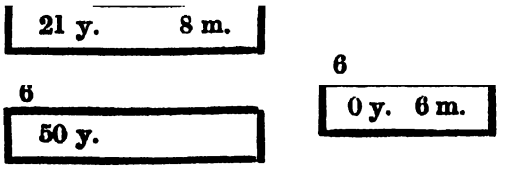
(5) *Are you married, unmarried, widowed or divorced?*—Write the answer in the triangle. This question will be answered by symbols. If the person enumerated has not yet been married, put 0. If married, *i.e.*, having a wife or husband living, write √. If widowed, and not remarried, put ×. If divorced, and not remarried, put D. Both partners in the divorce will be shown with a "D", unless either of them has remarried.

NOTE.—The present condition is what has to be noted. Thus, if a widowed or divorced person has remarried, the answer will be √.

If two persons are living as man and wife, in a relationship which by local custom and opinion is held to be equivalent to wedlock, then they are to be considered as married, although the strict formalities of wedlock have not been observed. A Hindu widow, remarried, will be considered a married person.

On the other hand mere concubinage will not be recognised as a married condition.

In this question, 0 means "I have never been married".



√ means "I have a wife (or husband) living".

× means "My wife (or husband) is dead. I now have no wife (or husband)".

D means "My marriage has been dissolved by divorce. I have not remarried".

(6) *Age.*—Write the answer in the rectangle. Give the age on 1st March 1941. State the age in years and months, if possible. Always write y. (abbreviation for "years") after the number of years; and m. (abbreviation for "months") after the number of months. For infants of less than one year of age, give the years as 0, and write the age in months.

Examples:—

(7) *How many children born? How many survive?*—This question is to be asked only of married women, *i.e.*, of females on whose slip there is a √ in Q. 5. Write first the number of children born. Then write in brackets the number of children still living.

Example—7. (2).

If she has never had a child, put ×. For unmarried and divorced and widowed females and for all males, put a ×.

Thus in this question × means "This question does not apply to me, as I am a male, or an unmarried, divorced or widowed female". It may also mean "I am a married woman, but I have never had a child".

(8) *What was the mother's age at the birth of her first child?*—This question, like Q. 7, is asked only of married women. Here write the mother's age in years at the birth of her first child. If she has never had a child, put ×. Likewise, in the case of unmarried, widowed, or divorced females, and all males, put a ×.

Example.—In this question "18 y." means "I was 18 years of age at the birth of my first child".

× means *either* "I have never had a child", *or* "I am a male, or an unmarried, widowed or divorced female. This question does not apply to me".

(9) *Are you wholly or partly dependent?*—"Dependent" means "Dependent for means of livelihood". A person who has no income in cash or kind must be wholly dependent on some one for means of livelihood. The commonest class of dependent are wives and children. For persons who are wholly dependent put a √.

A person may have some income in cash or kind, and yet not be in a position to support himself. Frequent instances will be found among Muslim families. Muslim females may inherit property, which they possess in their own right. The profits from this property are not usually sufficient to support them, but go to supplement the family income. These women are not independent, but at the same time are not wholly dependent. All dependents who have some income in cash or kind, distinct from the income of the person on whom they are dependent, are regarded as "Partly dependent". In recording them write "P." (abbreviation for Partly).

NOTE.—The income which renders a person partly dependent may be in cash or kind.

Example.—In very poor families, the wife may husk paddy in the houses of her richer neighbours. For this she is usually rewarded with some rice. If she does this regularly, she is "Partly dependent". Enter "P.".

On the other hand, assisting the guardian or husband in his means of livelihood does not render a wife or ward "Partly dependent", *e.g.*, a cultivator may employ his wife and children regularly in labour on his fields. This labour does not render them "partly dependent", as they earn no income which is distinct from the income of the husband or guardian. The case is the same with the cottage weaver, who employs his family at the loom.

If a person maintains himself, without relying upon the income of any other person, he is "independent". In such cases put a ×.

Co-sharers in joint families who maintain themselves out of their share of the joint property are independent.

Convicts in jails, lepers and lunatics in asylums, are regarded as wholly dependent. In their case, put a √ in Q. 9.

In-patients in hospitals, and undertrial prisoners should be regarded as pursuing their ordinary avocations. In their case, put a √, or P., or × according to their actual circumstances.

Thus, in this question √ means "Yes. I am wholly dependent." P. means "I am partly dependent". × means "No. I am neither wholly or partly dependent, *i.e.*, I am independent".

(10) *If you are wholly or partly dependent, what is the means of livelihood of the person on whom you are dependent?*—This question will only be asked of persons who are partly or wholly dependent.

Persons who are not dependent on any one else need not be asked this question. In their case put a ×. That is to say, where a × has been put against Q. 9 (meaning independent), a × will be put against this question.

When a person is wholly or partly dependent, ask him "What is the livelihood of the person on whom you are dependent?" Write the description of the livelihood against this question. In the Appendix will be found some indication of the manner in which livelihoods should be described. This Appendix should therefore be studied. The principle is that the livelihood should be described as precisely and accurately as possible.

Convicts in jails, lunatics and lepers in asylums are a special case. For them, enter a × in Q. 10.

NOTE (*a*).—The person enumerated may be dependent on more persons than one. Write here the means of livelihood of that person on whom he is most nearly dependent.

NOTE (*a*).—The individual who supports the enumerated person may have several means of livelihood. Here write only the principal means of livelihood of that individual.

Example.—A (the person enumerated) is dependent on B. B derives an income from his profession as a doctor, and another income from the rents of his zemindari. His principal income is derived from his profession as a doctor. In Q. 10 in A's slip write "Doctor of medicine".

(11) *Do you employ paid assistants or members of your family?*—Enter the number of paid assistants after (*a*) and the number of family members so employed after (*b*). If no paid assistant or member of the family is employed enter 0 after (*a*) or after (*b*) as the case may be.

"Family" includes wife, children, and dependent relations. "Paid" means "paid in cash or kind". "Employ" means "Regularly employ in your means of livelihood". Domestic servants will therefore not be included.

The person enumerated may have more livelihoods than one. If he employs no assistants in his principal occupation, he should be asked if he does so in his secondary occupation.

Example.—A's principal means of livelihood is his salary as a collectorate clerk. In this occupation, of course, he employs no assistants. He also has khas land, which he cultivates through 2 bhagdars. Enter "2" after (*a*) in this question.

After (*a*) enter the number of paid assistants. After (*b*) enter the number of members of the family so employed The employment must be on behalf of, or for the benefit of, the person who employs them.

Examples.—(*i*) A cultivator engages 2 bhagdars and 1 whole-time kishan to till his fields. The bhagdars and the kishan are his paid assistants in his means of livelihood. Enter "3" after (*a*) in this question.

The same cultivator may be regularly assisted in his cultivation by two of his children. In that case, enter "2" after (*b*).

NOTE.—The employment must be regular employment, and does not refer to labour hired for a few days, merely to assist in a brief operation. Thus, extra hands taken on to assist in reaping crops or steeping jute will not be included.

(*ii*) A zemindar, whose livelihood is derived from the rents of his zemindari, employs and pays 3 naibs, 20 gomashtas, and 50 peons to collect his rents. Write 73 after (*a*).

(*iii*) A labour contractor maintains a constant labour force of about 50 men. Enter 50 after (*a*).

(*iv*) A cottage weaver regularly employs 4 members of his family to assist him at the loom. Enter 4 after (*b*).

NOTE (*i*).—The term "employ" does not apply to agents or subordinates who engage labour, not on their own behalf, but on behalf of some superior authority. Thus (*a*) the Collector in a district office is not regarded as the employer of his clerical staff. (*b*) The Manager of a tea-garden is not the employer of his coolies; the manager of a jute mill is not the employer of the millhands. (*c*) The manager of a Court of Wards estate is not the employer of the staff engaged in the management of the estate. (*d*) Individual shareholders in joint stock companies are not employers of the company's employees.

NOTE (*ii*).—A Hindu joint family may be the proprietor of a joint concern—*e.g.*, a zemindari, or a business, which employs paid assistants. If each member of the joint family is recorded as employing the total number of the employees of the joint concern, the duplication of the figures will falsify the census. Therefore specially note the following rule. Where a joint family employs paid assistants in securing its joint means of livelihood, the number of the paid assistants will be shown only in the enumeration slip of the karta of the joint family. It will not be shown in the slips of the other co-sharers.

(12) *Are you in employment now?*—Ask this question only of persons who are not less than 16 years of age. If the person is in employment now, put a √. If he is not, put a ×. If he is less than 16 years of age, put a ×.

Employment means active employment in a means of livelihood. Pension-holders, who have no other earnings, are not "in employment". Similarly, income from investments does not constitute "employment". Wives, who merely keep house for their husbands, are not "in employment".

A cultivator is to be considered "in employment", although during the census period he may have no work to do upon his fields

In this question therefore, √ means "Yes, I am in employment now". × means *either* "I am not in employment now" *or* "I am less than 16 years of age. The question does not apply to me".

(13) (*i*) *Are you in search of employment?* (*ii*) *For how many months have you been in search of employment?*—This question will only be put to persons who are not less than 16 years of age.

No person who is "in employment" will be regarded as "in search of employment".

If a person is in employment (*i.e.*, has been recorded with a √ in Q. 12) the enumerator will always put a × in Q. 13.

If he is not in employment (*i.e.*, has been recorded with a × in Q. 12), the enumerator will ask him if he is in search of employment, in other words, if he is looking for a job. If he is looking for a job, he will be asked "For how many months have you been looking for a job?" The period will be written down in months, *i.e.*, the number of months, followed by the letter m. (abbreviation for months).

If he is not in search of employment, put a ×.

NOTE (*i*).—It does not follow that every person who is shown as "not in employment" against Q. 12, will be "in search of employment". For instance, females engage in household duties, pension-holders, and rentiers, will be "unemployed" as regards Q. 12; but in most cases they will not be "in search of employment".

NOTE (*ii*).—A person may be "in employment", but dissatisfied with his job, and looking out for a better one Such a person will not be considered as "in search of employment". Q. 13 is designed for the census of the genuine unemployed, who are actually workless.

Example.—In this question "24 m." means "I have no job. I have been looking for work for 2 years".

× means *either* "I am less than 16 years of age; the question does not apply to me." *or* "I am not in search of employment".

(14) *What is your means of livelihood, if any?*—If the person has more than one means of livelihood, write first the most important, and then, in the next line, the next most important. There is no need to record more than two means of livelihood. In most cases the person enumerated will only have one means of livelihood.

Remember that what is recorded here is the means of livelihood of the person enumerated, not that of any other person.

Thus, a person who is "wholly dependent" has no means of livelihood. For all persons, who have no means of livelihood of their own, put a ×.

A person who is "partly dependent" must have some income in cash or kind. State precisely from what source that income is derived.

Persons who are independent must have at least one means of livelihood. It is essential that the means of livelihood should be described in exact words. Therefore avoid such vague expressions as "writing; service; shop; cultivation; labour". The enumerator should state what kind of "writing", etc.

In the Appendix will be found a list giving the recommended descriptions for a number of means of livelihood commonly met with. This list illustrates the principle by practical examples.

In the same appendix is a special note on agricultural occupations, showing how they are to be classified and described.

(15) *Does this means of livelihood last throughout the year? If not, for how many months in the year does it last?*—The means of livelihood mentioned in this question refers to the means of livelihood of a person who is partly dependent (see Q. 9); or a subsidiary means of livelihood entered in Q. 14.

If it lasts throughout the year put a √. If it lasts for a portion of the year, write the number of months, followed by the letter "m." (abbreviation for months), *e.g.*, "6 m." means "It lasts for 6 months". If the period varies from year to year, state the period for which it lasted in 1940.

A means of livelihood depending on agriculture is regarded as lasting throughout the year.

For persons who are wholly dependent put a ×. For persons who are independent and have no subsidiary means of livelihood, put a ×.

Example.—In this question √ means *either* "The means of livelihood which renders me partly dependent exists throughout the year"; *or* "My subsidiary means of livelihood lasts throughout the year".

"3 m." means *either* "The means of livelihood which renders me partly dependent lasts for 3 months in the year"; *or* "My subsidiary means of livelihood lasts for 3 months in the year".

× means *either* "I am wholly dependent. I have no means of livelihood. The question does not apply to me"; *or* "I am independent, but I have no subsidiary means of livelihood. The question does not apply to me".

(16) *If you are employed by some one else, what is your employer's business?*—"Employment" means only employment for cash. If a person is not employed by someone else for cash remuneration, put a ×.

This question does not refer to persons employed in agriculture or domestic service. For persons who are employed in agriculture or domestic service, put a ×.

The question refers to the principal means of livelihood only. The term "employer" includes a company or firm.

NOTE.—What has to be entered is not the name of the employer, but his business. If the company or firm has several kinds of business, enter only that business in which the enumerated person is employed.

Example.—In this question × means *either* "I am not employed (in my chief means of livelihood) by someone else for cash"; *or* "I am employed in agriculture or domestic service. The question does not apply to me".

A firm may have interests in jute mills, and tea gardens. The person enumerated happens to be employed by that firm on a tea-garden. In that person's slip, against this question, will be written "Tea cultivation".

NOTE.—See Appendix.

(17) *Were you born in this district? If not, in what district were you born?*—If the person enumerated was born in this district in which he is enumerated, put a √.

If he was born in some other district in Bengal, write the name of the district.

If he was born in another province, write the name of the district, followed by the name of the province.

If he was born in an Indian State, write the name of the State.

If he was born in a foreign country, write the name of the country.

Example.—√ means "Yes. I was born in this district". "Manbhum, Bihar" means "I was born in Manbhum district, in the province of Bihar".

"Burma" means "I was born in Burma".

(18) *What is your mother-tongue?*—Enter here the name of the language first spoken from the cradle. The mother-tongue of English-speaking races will naturally be English, although Europeans who were born in the country may have first learnt to speak the language of their native ayah.

Dumb persons and infants who have not yet learnt to speak, should be recorded as speaking the language of their mother.

NOTE.—In several European nations, the language spoken is not described by the name of the nationality. Thus Belgians do not speak "Belgian", but French, Flemish or Walloon. Swiss do not speak a Swiss language, but French, German or Italian. Czechs may speak either the Czech language or German. Canadians may speak either French or English. Brazilians may speak Portuguese, Argentinos, Spanish, and so on.

(19) *What other Indian languages do you commonly use?*—Remember, this question relates to *Indian* languages, and not to English or any other foreign language.

No Indian language should be entered here, unless the enumerated person speaks it fluently, and habitually, for domestic or business purposes. Do not enter dead or learned languages like Sanskrit, Pali or Latin. It must be a language which is used for the ordinary purposes of every-day life. If a person is fluent in several Indian languages, not more than two should be recorded.

Examples.—A, a Marwari shop-keeper, whose native language is Hindi, keeps a shop, in which he has to speak Bengali to his customers. He is fluent in Bengali. In enumerating him, the language "Hindi" will be entered against Q. 18; and the language "Bengali" against Q. 19.

A, a Munda speaking aboriginal, is employed on a tea-garden, where the *lingua franca* is Hindustani. A is fluent in this language. In his enumeration slip, "Munda" will be written against Q. 18, and "Hindustani" against Q. 19. For those who do not commonly use any other Indian language, put ×.

(20) *Can you both read and write? If so, in what language? Can you only read?*—The test of reading and writing is ability to write a letter and read the answer to it. A person who can only read his signature is not literate.

If a person can pass this test in reading and writing, the enumerator will write down the name of the language in which he is literate, *e.g.*, Bengali, Nepali, Tamil, French. As regards Hindustani, if the person writes this language in Devanagari characters, record the language as Hindi. If he writes it in Urdu characters, record the language as Urdu.

If the person enumerated is literate in his mother-tongue and another language, record particulars only of his mother-tongue.

Example.—A Bengali clerk is literate in Bengali and English. In question 20 write only "Bengali". [There is a separate question (No. 22) dealing with literacy in English.]

On the other hand, in the case of an Englishman, literate in English, write "English" in Q. 20.

If the person enumerated cannot read and write according to this test, put a ×.

If the person can read, but not write, put P. (abbreviation for "Partly") followed by the name of the language. The test of reading is the ability to read print.

Example.—"Bengali" means "I can read and write Bengali".

"P. Bengali" means "I can read Bengali when it is printed, but cannot write".

× means "I can neither read nor write".

(21) *How far have you read?*—Write the answer between the dotted lines. Give the highest examination you have passed.

In India, there is an examination for most classes in schools. Use the accepted abbreviations, *e.g.*, L. P. (for lower primary), U. P. (for upper primary), Matric., I.A., B.A., M.A., etc.

If he has passed class 4, 5, or 6, write class 4, 5, or 6 as the case may be.

If he has passed no examination, put a ×.

Exception.—The enumerator may encounter educated persons who have passed no examination. In these cases, the enumerator will have to judge the standard of education to which the person may have attained, and will record that standard.

These cases will most frequently occur among the females of bhadralok families, who have been privately educated. The enumerator will have to estimate the standard of education they have reached and record it.

(22) *Are you literate in English?*—Write the answer in the square. The test of literacy is ability to write a letter in English and read the answer to it.

If the person enumerated is literate according to this test, put a √. If he is not, put a ×.

NOTE.—All persons who are literate in English will be entered here, even if they have already been recorded in Q. 20 as being literate in English.

Appendix.

Question 4.—Religion.

If the enumerated person practises:—

(*a*) Islam write Is.
(*b*) Hinduism write H.
(*c*) Christianity write Chr.
(*d*) Any Tribal religion write Tribal.
(*e*) Buddhism write Buddhist.
(*f*) Brahmoism (unless the Bramho desires to return his religion as Hindu) write Brahmo.

For Parsees write Zoroastrian.
For Chinese write Confucianism.
For Jews write Jew.
For Jains write Jain.
For Sikhs write Sikhism.
For Aryas write Vedic Dharma, Hindu or Arya, according to the preference of the person enumerated.
If the enumerated person acknowledges no religion, write "No religion".
If he is atheistic or agnostic, write "Atheism" or "Agnostic" as the case may be.

Question 10.—Means of livelihood of person on whom dependent; and Question 14.—Means of livelihood (of person enumerated).

Say what kind of shop, *e.g.*, grocery shop, stationery shop, toddy shop, cycle shop, musical stores, cloth shop, tailoring shop, etc. **Shop.**

Distinguish between the clerical staff and the mill hands, *e.g.*, accountant or pay clerk in jute mill, jute weaver or jute spinner in jute mill. **Mills and factories.**

Say what kind of works, *i.e.*, what branch of engineering the person enumerated is engaged in, *e.g.*, tram, bus or motor works; or general engineering contractors. If the concern specialises in any particular branch of engineering, state it, *e.g.*, road or bridge construction. **Engineering works or repair shops.**

Say whether the person enumerated is an engineer by profession, or foreman, or mechanic, *e.g.*, Mechanic in motor repair works.

Say what kind of plantation, *e.g.*, tea-garden, or cinchona plantation. **Plantations.**

Distinguish between manager, assistant manager, clerical staff, and coolie, *e.g.*, manager of tea-garden, head assistant on tea-garden, coolie on tea-garden.

Say what branch of railway administration, *e.g.*, traffic manager, driver, guard, porter; or assistant in traffic department, and so on. **Railway companies.**

Give the name of the trade, and state whether manager or salesman, etc., in a particular department. **Trade.**

If engaged in the building trade, state whether architect, mason, building contractor, or maker of bricks, etc.

NOTE.—In small industries, the maker of the article will often be the seller. In these cases, always state whether the person also sells the articles which he makes, *e.g.*, maker and/or seller of biris, of ornaments, etc.

(*a*) *Law.*—Say whether barrister, barrister judge, solicitor, pleader, muktar, pleader's clerk, etc. **Professions.**

(*b*) *Medicine.*—State whether doctor of medicine, kabiraj, compounder, nurse, hospital orderly and so on.

(*c*) *Civil Service.*—State whether I.C.S., I.E.S., I.F.S., I.S.E., B.C.S., etc. If the person is employed in a Government office, state whether in Collectorate, Judges' Court, C. W. D., A. G. B.'s office and so on.

(*d*) *Police.*—State whether Imperial Police (for which use the abbreviation I.P.), Inspector of Police, Sub-Inspector, Constable, etc. (If in armed branch, say so.)

(*e*) *Military.*—State whether British, Indian or Colonial army, and give the military rank, *e.g.*, Colonel, Major, Sergeant, Subadar, private.

(*f*) *Teaching.*—State whether professor in a college, or teacher in a school; say whether the teaching is done in a H. E., M. E., or primary school, or muktab, etc.

There are numerous artisan professions; state the profession clearly, *e.g.*, blacksmith, carpenter, wheelwright, sawyer, cobbler and so on.

Examples are.—Company promoter, stockjobber, broker, banker, money-lender.

NOTE.—If the person enumerated is engaged in banking, state whether he is a manager, assistant, cashier, accountant, etc.

Examples are—Pension, income from investments, shareholder (a shareholder is not the same as a co-sharer).

Agricultural occupations.—Agriculture is a very widespread form of livelihood, and embraces several distinct categories of occupation. It is necessary to mark clearly in what category the enumerated person falls. The terms familiar to revenue law, such as zemindar, patnidar, rayat, korfa and a host of others are not suitable. They define merely the legal status, and do not always express how the cultivator actually deals with his land. Therefore persons whose livelihood is derived from land are to be divided into four classes, *viz.*, (*i*) those who take rent from land, but do not cultivate it themselves. These correspond to zemindars, tenure-holders and owners of similar interests. (*ii*) Those who cultivate their own land on payment of rent, either with their own hands or through hired labour or bhagdars. These correspond to rayats, korfas, etc. (*iii*) Those who cultivate land not their own, supplying their own plough, and taking a share of the crop. These correspond to bhagdars, bargaits, borgadars, etc. (*iv*) Those who have no plough, but whose services are hired for labour in the fields, by the day, by the month, or by the year. This class in parts of Bengal are known as Kishans.

Into one or other of these four classes, the agricultural population of Bengal will fall.

In Q. 14 the respective livelihood of these four classes will be described as follows:—

(*i*) Rent from land.

(*ii*) Cultivates own land on rent.

(*iii*) Bhagdar.

(*iv*) Field labour.

NOTE.—No person will be described as a "bhagdar" who does not supply his own plough.

It will frequently happen that the same man belongs to two agricultural classes. In such cases, each will be treated as a separate means of livelihood and entered in Q. 14—the most important being written first.

Example—A cultivates 3 bighas of his own land as a rayat and 20 bighas of other men's land in bhag. His income as bhagdar is more lucrative than his income as a rayat. Then in Q. 14, write "Bhagdar" on the first line; and "cultivates own land for rent" on the second line.

NOTE.—In the case of persons whose livelihood is the raising of crops, it is not necessary to give the name of crop raised, except in the following instances:—

Jute, cocoanuts, pan, market produce (*i.e.*, kitchen gardens), flowers and fruit.

Thus where the cultivator raises as his principal crop jute, cocoanut, pan, market produce, flowers or fruit the enumerator will enter the name of the crop in Q. 14.

Question 16 (Business of employer).

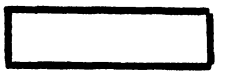
In districts where certain great industries are widely extended, much time may be saved, and a useful uniformity may be secured by issuing a simple direction as to the entry against this question in the slips of the employees of this industry.

Thus, persons employed in tea-gardens are in most cases the employees of firms whose business is "tea cultivation". In the case of such persons therefore the entry will always be "tea cultivation".

In the mining areas of Asansol, Q. 16, in the case of most employees, will be answered by "coal-mining".

In jute-mill areas the answer to Q. 16, in the case of most mill hands, will be "jute weaving".

Teachers in schools and colleges are an important class of persons who are employed for cash remuneration. Their employers are usually school committees or similar bodies. The business of such committees, etc., is persumably "education". Therefore in the case of teachers employed for cash remuneration, the entry in Q. 16 will normally be "education".



Government servants are employed by Government, whose business is Government administration. In the case of Government servants, it will be sufficient to write "Government" in Q. 16. For municipal or district board employees, it will be sufficient to write "Municipality", or "District Board" in Q. 16.

(2)

Procedure to be followed by the enumerator during the census period.

Enumerator begins on 19th February 1941.

(*i*) The enumerator will start his rounds on the morning of 19th February 1941. He will take with him his enumeration pad, the questionnaire, his manual of instructions and his extract of the house-list.

He writes code number and house number at the head of each slip.

(*ii*) Before beginning, he should already have written the code number of his block at the head of each slip of his pad. As he comes to each house, he will write the number of the house against the asterisk on each slip. A separate slip will be used for each person. The slips for each person in the same census house will therefore bear the same house-number.

He should enumerate himself and his family first.

(*iii*) The first persons to be enumerated should be the enumerator himself, and his family. If he postpones this, there is some danger that in his anxiety to enumerate others he may forget to count himself.

Order and time in which to proceed.

(*iv*) He will proceed from house to house in the order indicated in the house-list. He should endeavour to time his visits at the moment when the majority of the people he has to enumerate will be in their homes.

The first question.

(*v*) His first question will invariably be "Have you been enumerated before at this census?" If the answer is "No", he will proceed to enumerate him. If it is "Yes", he will refrain.

NOTE.—If the enumerator disbelieves, or for good reason doubts, the answer given to this preliminary question, he should refer to his supervisor for instructions.

The last warning.

(*vi*) After concluding the enumeration of a particular person, the enumerator will not fail to warn the person enumerated that having been counted once, he must not allow himself to be counted a second time.

How to deal with residents.

(*vii*) In this way, all residents of the house whom the enumerator finds present will be enumerated. If any member of household is not at home for the moment but will return and sleep that night in the house, the enumerator need not insist upon his presence, but may proceed to record his particulars upon a slip as though he were actually present, provided the enumerator finds someone who can answer the questions on his behalf. Thus, persons who are working in the fields, or who have gone to the bazaar, or are engaged on errands of a similar description, need not be specially recalled for enumeration. If there is no one who can answer on behalf of the person absent, the enumerator must either repeat his visit when the person has returned, or else go and seek him where he happens to be.

Temporary absentees.

(*viii*) A person who is normally resident in a census house, but is absent, and *will not return to sleep in the house on the date of the enumerator's visit*, is a "temporary absentee". If the enumerator finds that any member of the household is a temporary absentee, he will mark the house with a tick (√) in his house-list extract, to serve as a reminder that on his revisional round (beginning on 2nd March 1941), he must ascertain if the absentee has returned, and enumerate him if he has returned.

Visitors.

(*ix*) If a person is found in a census house who is not normally a resident within that house, but has his home elsewhere, he will be regarded as a "visitor". When the enumerator encounters a visitor in a census house, he will ask him if he will be back in his own home on or before 1st March. If the answer is "Yes", he will take no action. If the answer is "No", or "I do not know", he will enumerate him, unless, after enquiry, he learns that the visitor has already been enumerated. In his house-list extract, the enumerator will mark with a cross (×) all the houses in which he has found visitors.

NOTE.—The visitor may have his home in a State or Province outside Bengal, or even outside India. These visitors will be treated in the same way as visitors whose homes are in Bengal.

[*Exception in respect of Sikkim State and Chittagong Hill Tracts.*—In Sikkim State and Chittagong Hill Tracts there will probably be no revisional round. If a native of Sikkim State or of Chittagong Hill Tracts returns from a visit to Bengal, and arrives home about 1st March, he may find that the enumerator has visited his house before his return. As the enumerator will not make a second round, these persons may escape enumeration altogether, unless they are enumerated wherever they are found. Therefore all enumerators must note the following rule, which is an exception to the general rule regarding visitors:—Where the visitor has his home in Sikkim State or Chittagong Hill Tracts, the enumerator will proceed to enumerate him in the house in which he finds him (unless he has already been enumerated), no matter when the visitor may be returning to his home.]

(*x*) The enumerator must have visited every house in his block by the evening of 1st March 1941. **Preliminary round ends.**

(*xi*) On the morning of 2nd March, the enumerator will start on his revisional round. He must conclude this round by the evening of 4th March or sooner if possible. He will visit every house. At each house he will ask if a birth has occurred since his first visit, and before sunrise of 1st March. If a birth has occurred, he will at once enumerate the child, if it is living. At the same time he will correct the mother's slip, against questions 7 and 8. He will next ask if any person enumerated has died before sunrise of 1st March. If there has been such a death, he will cancel the slip of the deceased person. **Revisional round begins.** **Births and deaths.**

NOTE.—A slip must never be torn out or destroyed. To cancel a slip, draw a diagonal line across it, and write "cancelled". If the cancellation is due to the death of the enumerated person, write also the word "Died" followed by the date of the death.

(*xii*) No action will be taken in respect of births or deaths occurring after sunrise of 1st March 1941.

(*xiii*) If he finds any new arrival (whether visitor or a member of the family), the enumerator will ask him if he has already been enumerated. If the answer is "Yes", he will take no action. If the answer is "No", he will enumerate him. **New arrivals.**

(*xiv*) The enumerator, when he comes to a house which he has marked with a √ in his extract [see paragraph (*viii*)], will enquire if the absentee has returned. If he has, he will ask him "Have you already been enumerated?" If the answer is "Yes", he will take no further action. If the answer is "No", he will enumerate him. **Returned absentees.**

(*xv*) When he comes to a house which he has marked in his extract with a × [see paragraph (*ix*)], the enumerator will ask if any of the visitors are still living in the house. If they are, he will enumerate them, unless they have already been enumerated by himself or some-one else. **Undeparted visitors.**

(*xvi*) A large part of the floating population will be found during the census period lodged in hotels and sarais. These will best be dealt with by a simultaneous count conducted on 1st March 1941. On this date the enumerator will visit each hotel in his block and record the particulars of the persons living in the hotel. On this occasion also the enumerator will take the opportunity to count the permanent members of the hotel staff, *i.e.*, the proprietor and manager (if resident), servants, and their families. The enumerator must be particularly careful when dealing with travellers to ascertain whether any of them have been previously enumerated. It is possible that travellers who have escaped enumeration elsewhere may arrive at hotels after the 1st of March. To catch these people the enumerator should visit the hotel daily on the 2nd, 3rd and 4th of March and there enumerate all the travellers who have not yet been counted by himself or some other enumerator. These daily visits will not throw a heavy burden on the enumerator as the persons who will require to be enumerated are not likely to be many except in large and busy hotels. Such hotels will in most cases be separate blocks and the enumerators will be able to devote all their time to them. **Floating population.** **Hotels.**

(*xvii*) Boat dwellers will usually be found at the ghats where boats are moored. They will be counted on the 1st of March. Wandering tribes, homeless vagrants, coolie gangs, etc., who may be found within the block, lodged either in encampments or at random, will likewise be counted on the 1st of March. The best time to catch these is in the evening, when they have settled down for the night. **Boat dwellers, etc.**

NOTE.—In cities and large railway stations there is always likely to be a number of vagrants who sleep in the streets or on railway platforms and entrances. Enumerators should, therefore, ascertain beforehand any areas of their block which vagrants of this description are disposed to frequent. On the evening of 1st March they should not fail to visit these areas.

(*xviii*) Boarders in schools and hostels will be counted on the morning of the 1st March. **Boarders.**

(*xix*) Prisoners and warders lodged in jails and sub-jails will be counted at any convenient time on the 1st of March. Prisoners whose discharge is impending will be warned that they have been enumerated and that they must not let themselves be counted elsewhere. All prisoners and warders who may arrive in the jail after the 1st of March will be asked by the officer in charge of the census of the jail whether they have been enumerated yet. If the enumerator of the jail is a member of the jail staff all new arrivals who have not yet been counted will be enumerated as soon as they **Jails.**

arrive. If the enumerator is not a member of the jail staff, he will pay a final visit to the jail in the evening of 4th March and enumerate the uncounted inmates. The officer in charge of the census in the jail will have these inmates ready for the enumerator at that time.

Hospitals.

(*xx*) In-patients lying in hospital wards will be counted at some convenient time on 1st March. On the same day or on the previous day, if that is found more suitable, the resident hospital staff—doctors, nurses, orderlies and menials—will likewise be counted. Patients arriving after the 1st March will be asked at the time of admission by the officer in charge of the census of the hospital whether they have yet been enumerated. A list will be kept of new patients who have not been enumerated and these will be counted by the enumerator on his final visit on the evening of 4th March.

NOTE.—If the enumerator is himself a member of the hospital staff, it would probably be more convenient to enumerate each patient arriving after the 1st of March at the time of his admission.

Asylums.

(*xxi*) Inmates of lunatic asylums and similar institutions will be enumerated in the same way as inmates of jails and hospitals.

Police lines.

(*xxii*) Personnel lodged in police lines and barracks should be enumerated, if possible, at some convenient time on 1st March. The method suggested is to call up squads in rotation for enumeration and dismiss each squad after enumeration. The first squad so dismissed may be employed until enumeration is over in removing from the lines persons who are not resident there. The occupants of married quarters within the lines will be enumerated on the same day. Police personnel detached from the lines for special duty will be enumerated either before their departure or on their arrival at their destination. If their departure takes place no more than 2 or 3 days before 1st March, it will be most convenient to enumerate them before their departure.

Publicity.

(*xxiii*) If the foregoing instructions are diligently followed, it is not likely that many individuals will escape the count. Instances may occur, however, where through a chain of coincidences a person, without intentionally dodging the enumerator, may be unlucky enough to miss him at the time of his visits. It is incumbent on district census officers to employ such means of publicity as are open to them to advertise the approach of enumeration and to exhort the public generally to co-operate. In particular on the 3rd and 4th of March 1941 it is suggested that district census officers should recommend all union boards and municipalities to announce by beat of drum that enumeration is about to close and that all persons who have not yet been enumerated should seek out their enumerators at once. A warning in similar terms may be published in newspapers which circulate in the district.

Inspection by supervisors.

(*xxiv*) Throughout the period of enumeration supervisors should move about their circles and inspect the work of their enumerators. Supervisors are required to check not less than 20 per cent. of the total entries.

Enumerators' abstracts and charge and circle summaries.

Rendezvous.

1. On the 5th March, enumerators will assemble at a place within their circle assigned by their supervisor. They will bring with them all their enumeration pads, both used and unused, and any loose slips which they may have been given. The supervisor will deal with each enumerator in turn. He will first check the number of pads and loose slips returned with the number issued and see that none has been withheld or lost. The enumerators will then prepare the enumerator's abstract. The form of the abstract is shown in the appendix. Each enumerator will have filled up on an average from 3 to 4 pads. He will first extract the detail of each pad, and write it on the cardboard cover. Loose slips will be stitched together by the enumerator, and the detail will be written on the back of the final slip. Having completed this, he will fill in the abstract in manuscript. He will then hand the pads with the abstract to the supervisor, who will at once check each pad with the detail written on the cover, and with the detail recorded in the enumerator's abstract. He will also take the opportunity to make a further check of the entries in the slips. When the check is complete, the supervisor will take into his custody the pads, loose slips and enumerator's abstract.

Enumerator's abstract.

Checked by supervisor.

NOTE.—To assist in the check, the supervisor may take the assistance of reserve enumerators who have not enumerated any block themselves. Reserve enumerators should therefore be directed to attend. Reserve enumerators employed in checking will report to the supervisor any discrepancy they detect.

2. On the same day the supervisor will prepare the circle summary in duplicate. The form is given in the appendix, and will be supplied. He will then stitch together the enumerators' abstracts with the original of the circle summary. He will next arrange the pads and slips serially by blocks, and then by mauzas making separate bundles by mauzas. To each bundle he will attach a ticket giving the name of the mauza. **Circle summary in duplicate.**

3. On the 6th March, the supervisors will assemble at a place previously assigned by the charge superintendent. They will bring with them the pads and loose slips, the enumerators' extracts and circle summaries. The charge superintendent will at this place check each enumerator's extract with the supervisor's summary, employing for this purpose two supervisors, who will work independently. In the same way he will check each circle summary with his charge register to see that no block has been omitted. He will then compile his charge summary in the printed form which will already have been supplied to him. The form is given in the appendix. Having done this he will stitch to his charge summary the spare copies of the circle summaries. **Supervisor's rendezvous.** **Charge superintendent checks.** **Charge summary.**

NOTE.—Supervisors should have filled in beforehand from their circle registers columns 1 and 2 of the circle summaries.

Charge superintendents likewise should have filled in beforehand column 1 of their charge summary. If this is not done beforehand, pads relating to a block, mauza or circle, may be lost sight of, and not noticed at the time of checking.

4. The charge superintendent will then once more check the entries posted in his charge summary; and then send to the district census officer the entire set of abstracts; *i.e.*, one set containing the charge summary, with circle summaries attached; and the other set of circle summaries, to each of which has been attached a set of the relevant enumerator's abstracts. **Despatch of abstracts, etc.**

5. The charge superintendent will retain in his custody the pads and loose slips and will dispose of them according to the directions he receives from the district census officer. Meanwhile, he will check the arrangement of pads made by his supervisors. He will see that pads are arranged serially by blocks; and that bundles of pads representing blocks are serially arranged in larger parcels representing mauzas. He will then assort these parcels by circles. To check this arrangement he will utilise his charge register, and also the list which was prescribed in circular No. 6, at page 6, the last two paragraphs of section 29.

NOTE.—The only case where a block may contain more than one mauza, is where one of the mauzas is uninhabited. The charge superintendent will therefore add an explanatory note in the list against each block which contains an uninhabited mauza, stating the name of the mauza which is uninhabited.

Substitute the following *for* rule 27:—

(*a*) Ten Bengal Government stipends of the value of Rs. 12-8 each a month will be granted to students (only *bona fide* natives of Bengal) other than those who are already in receipt of stipends from district boards, or other bodies, as shown below:—

A class, 4 stipends;

B class, 3 stipends;

C class, 3 stipends.

The above stipends will be awarded to the students who have competed at the first terminal class examination in class A and to the students in classes B and C in accordance with their placing at the annual professional examinations. The Principal may stop the whole or part of any stipend whether awarded by Government or local bodies for indifferent progress, irregular conduct, or misbehaviour, etc. A note to this effect will be made in the students' personal files.

Out of the above ten stipends, three should be reserved for Muslim students, one for each of the three classes. The Muslim students should ordinarily be allowed to compete with those of other communities in these examinations and qualify for the stipends. If, however, they fail to secure the stipends in the general competition, the reserved stipends should be awarded to those who secure the first position in each class among Muslim students at the examinations.

(*b*) Twenty additional stipends of the value of Rs. 12-8 each a month will be granted by the Bengal Government to poor students only of the Muslim and Scheduled Caste communities (only *bona fide* natives of Bengal) who have attained the prescribed standard of general education, are otherwise eligible for admission and are not in receipt of stipends from district boards or other bodies. The stipends will lapse if suitable Muslim or Scheduled Caste candidates be not forthcoming. The poverty of the candidates must be certified by the headmasters of the schools

No. 2511R.I.—18th November 1940.—In exercise of the powers conferred by section 55 of the Bengal Agricultural Debtors Act, 1935 (Bengal Act VII of 1936), the Governor is pleased to make the following amendments in the Bengal Agricultural Debtors Rules, 1936, published with notification No. 9187L.R., dated the 26th June 1936, as subsequently amended, namely:—

1. In rule 50A(3) of the said rules, the words "after the fees referred to in the said rule have been paid" shall be omitted.

2. After rule 50A of the said rules, the following rules shall be inserted:—

Procedure to be followed in determining the amount of principal and interest of a debt to which sub-section (5) or (6) of section 18 applies.

50B. (*1*) For the purpose of enabling the Board to make the determination under sub-section (*2*) of section 18 in respect of a debt to which the provisions of sub-section (*5*) of that section apply, the Collector shall, by notification in the *Calcutta Gazette* and in such other manner as the Provincial Government may direct,—

(*a*) as soon as possible after the publication of this rule, declare for the whole district or any part thereof the normal outturn per acre of each of the principal crops grown in his district;

(*b*) as soon as possible after the publication of this rule, and in the month of January in each subsequent year, declare the price per maund of each such crop during the month following the harvest in each of the preceding fifteen years;

(*2*) (*a*) For the purpose of the declaration under clause (*a*) of sub-rule (*1*), the Collector shall take the figures in Schedule I appended to these rules for each of the crops mentioned in that Schedule as the normal outturn per acre of such crop, unless he is, for reasons to be recorded in writing, satisfied that any other figure should be declared as the normal outturn for any part of the district.

(*b*) For the purpose of declaration under clause (*b*) of sub-rule (*1*), the Collector shall—

(*i*) take the figure for his district contained in Appendix VI of the Annual Season and Crop Report, Bengal, with regard to each of the crops mentioned in that Appendix as the price per maund of such crop, unless for reasons to be recorded in writing he is satisfied that a different figure should be taken for any part of the district;

(*ii*) take the price per maund of *aus* and *aman* paddy to be half the price shown in the said Appendix for autumn and winter rice respectively, and the price of sugarcane to be 1/15th of the price of *gur*.

(*3*) Every preliminary declaration published under sub-rule (*1*) shall further state that any objection received by the Collector within thirty days from the date of such publication will be considered by him.

(*4*) After considering the objections, if any, received under sub-rule (*3*), the Collector shall, if necessary, amend the declaration and shall finally publish it.

(*5*) The Collector shall then annually by reference to the declarations finally published under sub-rule (*4*), calculate the value deemed to have been received per acre of each crop during the several periods from each of the fifteen years referred to in clause (*b*) of sub-rule (*1*) up to the end of the year previous to the calculation, in the district or any part thereof, and shall communicate the figures so arrived at to each Board in the district in the manner shown in Form VIIIA.

50C. Where the Board is satisfied that an account of receipts and expenses kept by the creditor regarding the use of any land of the debtor possessed by him is correct, it may accept such account for the purposes of sub-sections (*5*) and (*6*) of section 18.

50D. When no such account is kept or where the Board does not find an account so kept to be correct the Board shall—

(*1*) calculate the area of the property by reference to the particulars furnished in the application or statement of debt under clause (*ee*) of sub-section (*1*) of section 11;

(*2*) calculate the receipts of the creditor from each of the crops mentioned in form VIIIA grown on such area by multiplying the area normally cultivated with such crop by the figure in form VIIIA for that crop shown against the year in which the debt was incurred, adding thereto any amount received on account of any such crop harvested after the expiry of the latest year mentioned in form VIIIA.

(*3*) calculate in the manner directed by the Collector the receipts of the creditor from crops other than those mentioned in form VIIIA (such as *boro* paddy or mangoes) grown on the area referred to in clause (*1*) of this rule and the receipts of the creditor in respect of the property from any other sources (such as fish from any tank on the property).

50E. (*1*) One-half of the total receipts calculated under clauses (*2*) and (*3*) of rule 50D less the amount of any sum paid by the creditor as rent during the period of the debt shall be deducted by the Board from the total receipts as expenses incurred by the creditor for the cultivation or management of the property.

(*2*) The net receipts remaining after the deduction under sub-rule (*1*) shall, for the purpose of sub-section (*5*) of section 18, be deemed to be the amount to be credited towards repayment of the debt.

50F. For the purpose of ascertaining the amount of interest due on the original principal of the debt the Board shall, for the entire period of the debt, calculate such interest at the rate of two-thirds of the maximum rate specified for simple interest in any law for the time being in force for control of money-lending.

50G. (*1*) Where a loan has been made in kind, the Board shall, for the purpose of clause (*b*) of sub-section (*6*) of section 18, calculate the money value of such loan with reference to the figure shown in form VIIIB for the crop in which the loan was made against the year in which the loan was made.

(*2*) Where any interest has been paid in kind, the Board shall, for the purpose of clause (*b*) of sub-section (*6*) of section 18, calculate the money value of such payments with reference to the figures shown in form VIIIB for the crop with which interest was paid against the years in which such payments were made.

(*3*) If the loan was made or if the interest was paid in any other crop than those mentioned in form VIIIB, the Board shall estimate the money value of the loan or of interest payment at such amount as it may consider to be fair and reasonable.

3. After rule 91 of the said rules the following heading and rules shall be inserted, namely:—

"*Review (section 44).*

91A. No application under clause (*a*) of section 44 for review of any decision or order passed by a Board shall be entertained and no Board shall make any order reviewing, of its own motion under the said clause, any decision or order passed by it, if an appeal has been preferred under the Act from such decision or order.

91B. An application for review under clause (*a*) of section 44 shall ordinarily be made within sixty days of the date of the decision or order of the Board and a Board may also, of its own motion, review its decision or order within sixty days of the date of the decision or order passed by it:

Provided that no action shall be taken by a Board on an application for review made after the said period of sixty days and no Board shall review its decision or order after the said period save with the sanction of the Collector.

91C. In deciding whether sanction should be given under rule 91B or not, the Collector shall consider—

(*a*) whether any material illegality or irregularity has occurred;

(*b*) whether substantial injustice, hardship or difficulty has been occasioned; and

(*c*) whether the applicant had good and sufficient reasons for not making the application within sixty days of the date of the decision or order of the Board as required under rule 91B.

91D. No application to review an order made on an application for a review or an order made on a review under clause (*a*) of section 44 shall be entertained."

4. After form VIII appended to the said rules, the following forms shall be inserted, namely:—

[As modified up to the 4th November 1940.]

No. M.-1262.—In exercise of the powers conferred by sub-rule (1) of rule 55 of the Defence of India Rules, the Central Government is pleased to make the following Order:—

1. (*1*) This Order may be called the Petroleum Premises (Fire Protection) Order, 1940.

(*2*) It shall extend to all premises used for the storage of petroleum and situated:—

(*a*) within a radius of twenty miles from the ports of—

(*i*) Bombay,

(*ii*) Calcutta,

(*iii*) Madras,

(*iv*) Karachi,

(*v*) Cocanada,

(*b*) within British Cochin;

(*bb*) within the Lakhimpur District of the Province of Assam;

(*c*) at or near oil wells, oil pumping stations and oil refineries in—

(*i*) The Punjab,

(*ii*) Assam,

other than premises of which the storage capacity does not exceed 5,000 gallons of petroleum in bulk and 25,000 gallons of petroleum otherwise than in bulk, or in which all petroleum is stored completely underground in such manner as may be approved by the Chief Inspector.

(*3*) The provisions of this Order shall have effect notwithstanding anything inconsistent therewith contained in the Petroleum Act, 1934 (XXX of 1934), or in the Petroleum Rules, 1937, or in any licence issued thereunder.

2. Unless there is anything repugnant in the subject or context, all words and expressions used in this Order and defined in the Petroleum Act, 1934 (XXX of 1934), or in the rules framed thereunder shall have the meanings so assigned to them.

3. A distance of not less than one thousand feet shall be kept clear—

(*i*) between one storage tank and another,

(*ii*) between a storage tank and a storage shed, and

(*iii*) between a storage tank or storage shed and any protected work:

Provided that nothing in this clause shall require alterations to be made in storage tanks, storage sheds or protected works in existence on the date of this Order.

4. (*1*) Every storage tank containing petroleum shall be surrounded by a separate enclosure consisting of a wall or embankment capable of preventing the escape from the enclosure of any petroleum in the form of liquid whether under the action of fire or otherwise.

(*2*) Every such enclosure shall be of dimensions sufficient to contain—

(*a*) if the petroleum stored is dangerous petroleum, ten per cent. more than the tank is capable of containing, and

(*b*) if the petroleum stored is non-dangerous petroleum, the amount the tank is capable of containing.

(*3*) No enclosure shall be deemed to be capable of preventing the escape of petroleum in the form of liquid under the action of fire, unless such enclosure consists of either—

(*a*) an earthen embankment,

(*b*) a wall of brick banked with earth on either side to its full height, or

(*c*) a wall of stone or reinforced concrete.

(4) The wall of stone or reinforced concrete referred to in item (c) of sub-clause (3) shall, if the storage tank contains dangerous petroleum, be lined on the inner face with a fire and heat resisting lining not less than three inches thick and composed of foamed slag, slag or reinforced concrete blocks, fire-brick or other material approved by the Chief Inspector, and all iron and steel used in the construction of reinforced concrete shall be protected by not less than one inch of concrete.

(5) All damage whether from hostile action or otherwise to an enclosure mentioned in sub-clause (1) shall be repaired without avoidable delay; and for this purpose there shall be provided for each such enclosure filled sand bags sufficient to close a ten-foot breach in the enclosure wall and other materials and tools, all of which shall be kept in the immediate vicinity of the enclosure.

4A. (1) When in the opinion of the Conservator of the port, damage from hostile action, or otherwise, to any such enclosure as is mentioned in sub-clause (1) of clause 4, and situated in or in the vicinity of the port, would involve a risk of—

(a) escape of petroleum into any dock, harbour, or waterway, or

(b) danger to property in or in the vicinity of the port,

he shall order the holder of the licence for the storage of petroleum in the premises concerned to erect around such enclosure at a distance of not less than thirty feet a substantial wall or embankment constructed either of earth or of two layers of inter-lock sheet piling not less than five feet apart, the intervening space being filled with earth:

Provided that if the Conservator is of opinion that it is impracticable to erect a wall or embankment in the manner aforesaid, he shall, after consulting the Chief Inspector, issue such other orders to the holder of the said licence as may be necessary for carrying out the purposes of this sub-clause;

(2) The holder of the said licence shall comply with any order issued under sub-clause (1) within such time as is mentioned in the order.

5. (1) Every valve or other opening for the drainage of water from the enclosure of a storage tank or storage shed shall be provided with a lock and key and shall be kept closed and locked except when it is necessary to draw off water from the enclosure.

(2) Every such valve or opening shall be so constructed and maintained as to prevent when closed the escape of any liquid from the enclosure whether under the action of fire or otherwise.

(3) At premises where there is more than one enclosure surrounding storage tanks or storage sheds an efficient tell-tale shall be maintained in the office of the responsible agent or supervisor clearly indicating the location of any unclosed valves or other openings.

6. (1) Splinter proof shelters shall be provided for all main fire equipment, personnel employed in fire-fighting and air-raid precautions duties, and pump houses.

(2) The walls and roofs of all such shelters shall be constructed of either—

(a) brick work not less than fourteen inches thick;

(b) brick work not less than nine inches thick faced with sandbags;

(c) reinforced concrete not less than twelve inches thick;

(d) sandbags or earth not less than two and a half feet thick; or

(e) two fences of iron sheeting two feet apart, the intervening space being filled with shingle.

7. A sufficient number of trained fire fighting staff, drilled in their duties at least once a week, shall be ready for duty by night and day in the vicinity of all premises used for the storage of petroleum.

8. (*1*) For every thirty million gallons of petroleum stored there shall be provided the fire fighting equipment specified in the Schedule to this Order.

(*2*) For any quantity of storage less than thirty million gallons, the scale of equipment specified in the said Schedule may be reduced to such extent as may be approved by the Chief Inspector.

(*3*) All fire fighting equipment required by this clause shall be provided with interchangeable fittings, couplings, connections, nozzles and hoses of sizes and types which shall be common to all premises within each of the areas mentioned in sub-clause (2) of clause 1.

(*4*) The Chief Inspector may issue such directions as he may consider necessary for the purpose of securing compliance with the provisions of sub-clause (3).

9. (*1*) For every thirty million gallons of petroleum stored there shall be provided a main fire pump drawing its supply from a permanent source other than the public mains, and maintaining when in use a constant flow of one thousand gallons of water a minute at a pressure of not less than one hundred pounds per square inch in the water main specified in sub-clause (2).

(*2*) Water from the main fire pump shall be distributed in a service fire main not less than ten inches in diameter and shall be used for fire fighting purposes only. All stand pipes and other delivery points shall be directly fed from this main.

(*3*) An additional supply of water, pipes and connections shall be maintained at all premises sufficient to cool effectively every storage tank on the premises without reducing the supply of water for fire fighting purposes.

10. For the purposes of clauses 6, 7, 8 and 9, all premises separated by a distance of not more than one mile from one another shall be combined and the scale of equipment and fire fighting facilities required by the said clauses shall be such as may be required by their combined storage.

11. All measures necessary for compliance with the provisions of this Order excepting clause 4A shall be completed within two months from the date of this Order by the holder of the licence for the storage of petroleum in the premises concerned.

12. The Chief Inspector may, for special reasons,—

(*i*) exempt, either conditionally or unconditionally, any premises from all or any of the provisions of clauses 3 to 10;

(*ii*) extend in respect of any premises, either conditionally or unconditionally, the limit of time prescribed in clause 11.

SCHEDULE.
